The Honorable Hillary Rodham Clinton
U.S. Department of State
2201 C Street NW

Dear Secretary Clinton,

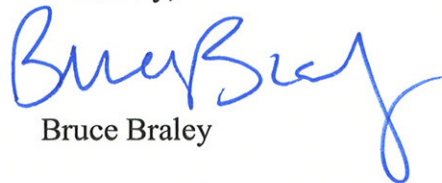

As Members of Congress seek facts on what happened in Benghazi, it's important that the American people also be given all information that is available and not necessary to be classified. On December 5, 2012, Members of Congress were shown a video featuring real time footage of the Benghazi attack.

The day after, I called on the Administration to look closely at that video and declassify as much of it as possible, so that the American people can see for themselves what really happened.

I urge you to make an assessment of the video and, without endangering any national security goals, release the broadest possible amount of footage to the American people. It's important for the American people to know what really happened that day.

Thank you for your time and consideration regarding this matter and I look forward to your response.

Sincerely,

Bruce Braley
